

MYCORAKSHA

Granular fertilizer VAM Granular Root Health Conditioner

MYCORAKSHA is a nutrient rich granular formulated product contains Vesicular Arbuscular Mycorrhizal (VAM) which is fungus helps the roots of the plant to capture nutrients from the soil. VAM has the ability to uptake and transport key nutrients, minerals and water from the soil directly into plants through roots. It helps increase root strength of the plant and therefore healthy growth and excellent yields.

BACTRIM

Immunomodulator

Suraksha Bactrim imparts resistance against bacterial diseases like leaf blight, black arm, canker, angular leaf spot, seedling blight etc in cotton, citrus, paddy, chillies, beetlevine, vegetables, flowers, ginger, tomato, onions and fruit crops.

BRON

Boron(B)20%(min)

Soil & Foliar Application

Disodium Octaborate Tetrahydrate

All Crops

BORAN 20 % is 100% water soluble micro nutrient fertilizer containing Disodium Octaborate Tetrahydrate (DOT), Boron 20%

Boron Benefits : Boron is integral part of plant cell wall along with Calcium, it promotes better development and quality of the produce

Suraksha Bio Sciences, is an established company serving the needs of farmers in their fields since 2009 for crop health and crop protection. Suraksha has broadly three divisions, Micronutrients, Bio Products and Pesticides with quality products into its portfolio. Riding the success based on the satisfaction of farmers, Suraksha is aiming for increasing the yields and thereby better returns for framers. Suraksha is run by qualified people and has superior infrastructure resulting in quality products. We are able to meet any requirement of the farmers, bulk manufacturing and job work for suitable marketers.

Suraksha Bio Sciences

An ISO 9001 Certified Company

Factory: Survey No.507, D. Nagaram (R), Koyyalagudem (V), Choutuppal (M), Yadadri Dist., T.S. - 508252, India

Reg. office: Plot No.27, Flat No.201, Maple House, Chandrapuri Colony, Road No.5, L.B.Nagar, Hyderabad-500074, Telangana, INDIA.

Custom Care No.: +91 814 214 2424

Email: surakshabio.care@gmail.com

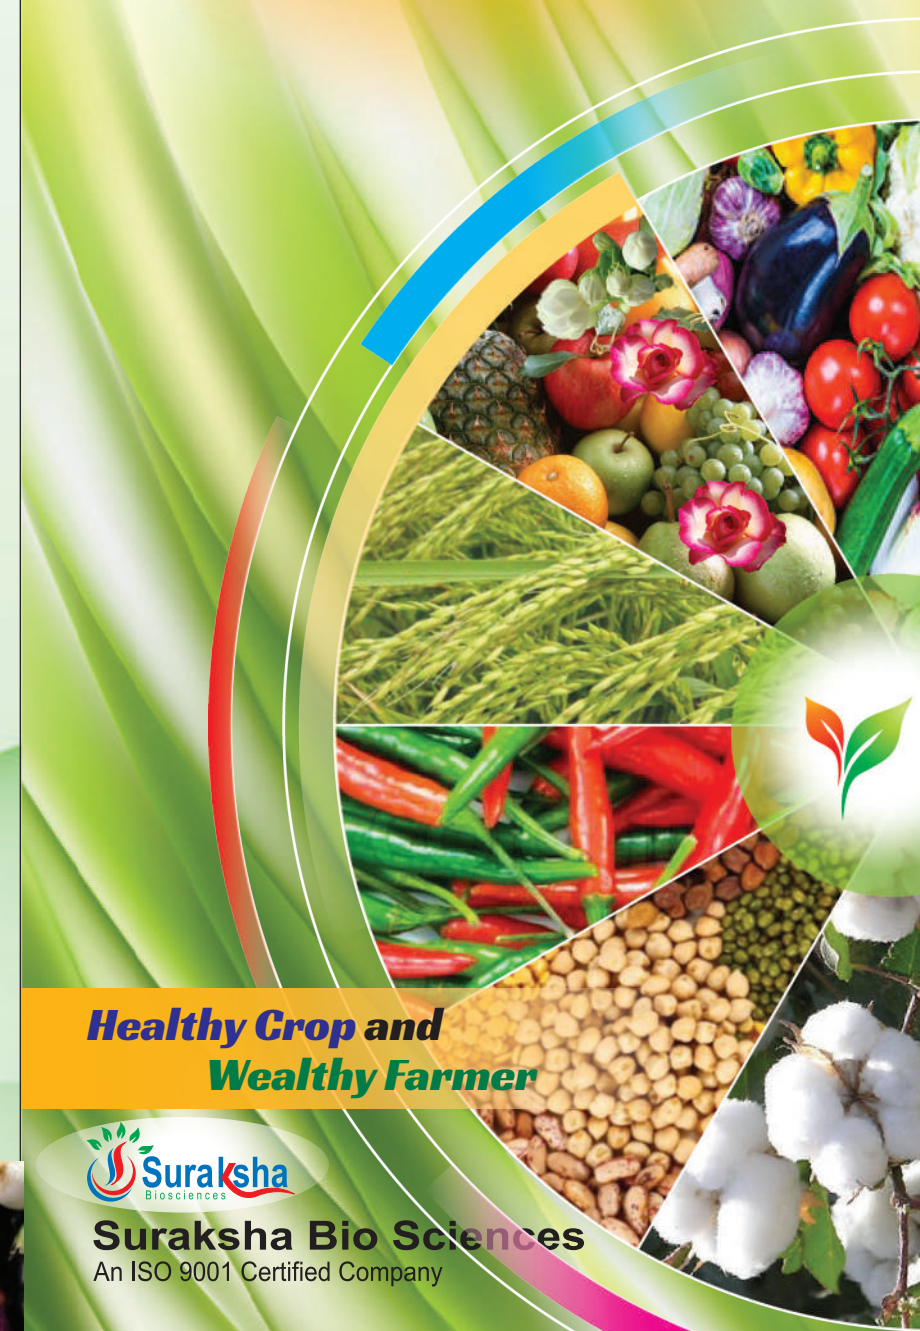

Crop Health - Always, All the ways: Suraksha

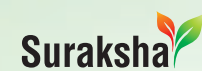

Healthy Crop and Wealthy Farmer

Suraksha Bio Sciences

An ISO 9001 Certified Company

HYMAX

Leafmin

Formula 1 Multi Micro Nutrient Fertiliser

Paddy, Sugarcane Special
Hymax -F1 foliar feed contains all micronutrients like ferrous, manganese, Zinc in organic form.
Advantages: Hymax -F1 foliar feed shows significantly effective in increasing quality fruits per tree and fruit weight.

Leafmin

HYMAX

Formula 2 Multi Micro Nutrient Fertiliser

Oil Seeds & Pulses
Hymax -F2 foliar feed contains all micronutrients like ferrous, manganese, Zinc, molybdenum in organic soluble form.
Advantages: Hymax -F2 foliar feed shows significantly effective in increasing quality fruits per tree and fruit weight.

HYMAX

Leafmin

Formula 4 Multi Micro Nutrient Fertiliser

Citrus Special
Hymax -F4 foliar feed contains all micronutrients like ferrous, manganese, Zinc, Copper in inorganic form. Boron and molybdenum in soluble form.
Advantages: Hymax -F4 foliar feed shows significantly effective in increasing quality fruits per tree and fruit weight.

HYMAX

Leafmin

Formula 6 Multi Micro Nutrient Fertiliser

Vegetables, Cotton Special
Hymax -F6 foliar feed contains all micronutrients like ferrous, manganese, Zinc in inorganic form. Boron in soluble form.
Advantages: Hymax -F6 foliar feed shows significantly effective in increasing quality fruits per tree and fruit weight.

Leafmin

HYMAX

Fertilizer MAGNESIUM SULPHATE

All Crops
Hymax Magnesium Sulfate Hepta Hydrate is an essential nutrient element for most crops which helps in photosynthesis thereby increasing chlorophyll content for healthy yields. It also helps in increasing enzymatic activity during plant growth for better carbon and nitrogen metabolism.

MAGIC SPRAY (EDTA Chelated)

Micro Nutrient Fertilizer

100 % Water Soluble Foliar Spray

MAGIC SPRAY is EDTA Chelated Micro nutrient mixture, free-flowing, fine crystalline green color micro granular powder. MAGIC SPRAY supply required Six essential micronutrients together in optimum dose to crops. MAGIC SPRAY helps to prevent mix crop deficiencies in different forms occurred gradually at different growth stages of crops. MAGIC SPRAY is chelated with EDTA and thus assures fast absorption of all individual micro elements in to plants.

SUPER ZINC

Formula 7

Formula 7 is a multi micronutrient mixture of Zinc, Manganese and other deficiencies for health plant growth resulting in better yields. Dosage: F-7 is recommended for Paddy, Cotton, Chillies and all other crops @ 10 kg per one acre.

HYMAX

Fertilizer Grade Zinc EDTA 12%

Water soluble formulation of zinc EDTA containing min. 12.0% water soluble zinc (Zn) chelated by EDTA. Recommended for use on agricultural crops viz. paddy, Cotton, Chillies, Vegetables, Sugarcane, Groundnut and Horticultural crop.

ZINC

Super Zinc is Zinc Sulphate Mono Hydrate contains 33% Zinc and 15% S, has the ability to totally control the Zinc deficiencies through foliar applications. Zinc in Super Zinc is in monohydrate form and in powder nature, completely soluble in water. Suraksha use on agricultural crops viz. paddy, Cotton, Chillies, Vegetables, Sugarcane, Groundnut and Horticultural crops.
